Product Details

FEATURES

12.1 MJ/h wok burner	Flat trivets	Simple and durable control panel graphics	Easy under knob ignition
Flame Failure Device	LP Gas Conversion kit included. LP Gas Conversion kit included. Must be installed by a licenced tradesperson.		

BENEFITS

High heat for full flavour Stir fries are a family favourite and the key to having a delicious stir fry is the flavours the ingredients bring to the table. With a 12.1 MJ/h wok burner you can lock in those flavours.	Keep your pots and pans in place For extra peace of mind, our flat trivets are designed to cover the large flat surface area for better pot stability.
Simple and durable control panel graphics Understanding the cooktop should be easy. That's why our graphics are clear and durable, so they are always there to help you understand how to get the most out of your new cooktop and understand exactly what goes where.	Easy ignite For busy kitchens the Easy Ignite under knob ignition is quick, simple and safe to use.
Flame out. Gas off. In the kitchen, it should always be safety first. If the cooktop flame unexpectedly goes out, our Flame Failure Device will automatically shut down the gas supply so you and your family can breathe easy.	

Specifications
