Product Details

FEATURES

AutoSense	Automatic Ice Maker	FreshSeal Crisper	Fresh Drawers
Pull out tray	FresherAir	Chill drink timer	FastIce
4 Star Energy Efficiency	Full Width Door Bins	Multi-flow airflow system	

BENEFITS

Clever cooling for busy homes
Enjoy a fridge that adapts to your daily life. AutoSense learns your households routine, from busy mornings to quiet nights, and automatically adjusts cooling to help keep food fresher for longer. When the door opens frequently, Shopping Mode activates, lowering the temperature to protect your groceries. And when youre away, AutoSense switches to Holiday or Mini-Break Mode* to save energy without you lifting a finger.*AutoSense modes only available when AutoSense is activated by the user.

Ice when you need it most
With the convenience of an automatic ice maker, weve got your ice needs covered. By replenishing itself, you will always have ice available for your family or last-minute guests.

A show stopper
Make your new French door fridge the centrepiece of the kitchen. With a sleek, flat door design and pocket handles for easy opening, you will be stopped in your tracks every time you see it.

Fast, fresh ice whenever you need it
From afternoon drinks to weekend BBQs, youll have more than enough ice to keep everyone cool. Our Autolce maker takes care of the freezing for you, and with FastIce speeding up production, you can enjoy extra cubes in a hurry whenever you need them.

Seal in the Freshness
Our FreshSeal™ crispers are sealed and come with a humidity slide that you control. The seals assist in preventing moisture loss whilst the humidity slide assists in creating the right environment for keeping food fresher for longer.

A space for everything
Maximise the organization in your fridge with the 2 NEW FreshDrawers. Located under the FreshSeal crispers, store your meat in one and deli items in the other, keeping your shelves clear and your food at your fingertips.

Easy access tray

The pull-out tray maximises freezer space and makes it easy to store and retrieve bulky or awkward items, saving you time and hassle every day.

A fresher fridge everyday

Keep your fridge smelling fresh and clear with our FresherAir carbon filter. Acting as a deodoriser, it helps remove unwanted odours so everything from leftovers to today's lunch doesn't overpower your fridge. Replacing your carbon filter every 6 months will ensure your fridge continues to perform to its best, every day.

Fast chill for every occasion

Forgot to chill the drinks? No problem! With the Chill drinks timer, you can quickly cool bottles in the freezer, so every celebration, or weeknight dinner, is perfectly chilled. The timer runs for 20 minutes and can be extended in 5-minute intervals up to 45 minutes, giving you that little extra chill time when you need it.
