

90cm freestanding oven with 5-zone SaphirMatt Induction Cooktop, FlexiBridge and Bridge zones, Sense Boil & Fry, Hob2Hood compatibility, 15 oven functions including AirFry Plus, assisted cooking, food probe, pyrolytic self-cleaning, connected CookSmart TFT touchscreen and included telescopic runners

RRP AUS \$8,999.00

Product Details

FEATURES

SaphirMatt Scratch resistant glass SaphirMatt scratch-resistant glass surface provides superior protection from abrasions*. *Based on external tests, compared to our standard hob surface without special treatment or coating.	Matte Black Design A matte black finish with reduced reflectivity blends modern design with surface innovation.	SenseBoil&Fry Smart sensors detect boiling and frying temperatures and adjust level automatically.	FlexiBridge FlexiBridge enables you to combine zones for large skillets or split zones when cooking more dishes.
PowerSlide PowerSlide allows you to precisely control results by sliding pots between three temperatures zones.	PowerBoost PowerBoost provides and instant burst of heat that is perfect for boiling potatoes or searing steak.	Hob2Hood Hob2Hood automatically adjusts your hood settings so you can focus on creating delicious dishes.	Pause Function The pause function sets zones to the lowest setting to keep dishes warm and prevent overcooking.
Food Sensor Food Sensor to achieve perfect results with ease.	Twin Fan System	Quadruple Glazed Oven Doors	CookSmart Touch CookSmart Touch guides you to cook perfect meals.
Assisted Cooking Assisted Cooking settings mean you can let your oven know whats cooking so it can handle the rest.	AirFry AirFry your food for a fried taste with less oil.	Pyroluxe Cleaning Self-cleaning pyrolytic function turns food residue and grease into ash for easy cleaning.	Flame failure safety device
SteamBake	Soft-close doors Soft Closing hinges ensure smooth and virtually silent door closure with just a gentle touch.	Telescopic runners Telescopic runners provide safe, easy access.	Slow Cooking Get those tender results with the built in Slow Cooking function.

BENEFITS

FLAWLESS RESULTS AT A TOUCH

CookSmart Touch display effortlessly guides you to achieve perfect results, from cooking everyday dishes to the most ambitious meals. Recently used and Favourites are available with just a swipe.

10X less visible scratches. Lasting style

Defined by sleek, matte-black sophistication. Designed to last. The exceptional durability of the SaphirMatt ceramic glass surface reduces visible scratches by up to 10x compared with our standard ceramic glass cooktops*. *Based on abrasion tests conducted by external Swiss laboratory in accordance with international standard IEC 60068-2-70. Scratch visibility is assessed internally in comparison to our standard ceramic glass hobs without special treatment or coating.

INTUITIVE BOILING AND FRYING

Smart sensors prevent over boiling and take the guesswork out of frying without you lifting a finger. SenseBoil detects when water is boiling and automatically lowers the temperature to a controlled simmer. SenseFry measures heat levels and makes automatic adjustments under the pan to maintain the exact temperature for even frying. Enjoy intuitive cooking with precise results, every time you boil and fry.

CUSTOMISE YOUR COOKING AREA

The FlexiBridge is ideal for when you're working with large pans or preparing many dishes at the same time. Customise cooking area for a long pan or cook lots of dishes separately at different temperatures with this fully adaptable zone.

A FRESHER KITCHEN. HANDS-FREE.

The wireless Hob2Hood function automatically adjusts your hood settings based on how you are cooking, leaving your hands free to focus on the food. The hood lights will automatically illuminate when your hob turns on and the fan speed will adjust depending on how powerfully you are cooking.

INSTANT BOIL

No more waiting around for pots to boil. PowerBoost provides an instant burst of heat that boils water in under 90 seconds, even faster than an electric kettle. Its perfect for high-heat tasks like boiling potatoes or searing steak.

SIMULTANEOUS TIMER CONTROL

Individual zone timers allow you to set the duration of your cooking zones independently of one another. When a cooking zone is in use, the control panel provides quick and easy access to its timer. No need to go through menus to find it. And since each dish can be precisely timed, absolute control of the cooking process is assured.

PYROLUXE™ SELF CLEANING

AEGs Pyroluxe self-cleaning function takes the hard work out of keeping your oven clean. The pyrolytic oven is heated to a very high temperature that will reduce grease and grime and burn off baked-on food residue reducing it to ash. All you need to do is wipe oven out with a damp cloth.

ADD STEAM FOR CRISPIER BAKING

The SteamBake button in this oven adds steam at the beginning of the baking process. The steam cooking keeps the dough moist on the surface to create golden colour and tasty crusts, while the centre stays soft and tender. In addition to baking crispy and tasty breads, muffins and pies - your roast chicken, grilled meats and lasagna will get equally delicious cooking results.
