A modern kitchen with dark red cabinetry and black appliances. The kitchen features a dark countertop, a sink, a mixer, and a refrigerator. The lighting is warm and focused on the kitchen area.

AEG

ZUKUNFT RANGE MESSAGE

The perfect match for your cooking ambitions

Impress with dishes that raise standards. Cooked to perfection, with just the touch of a finger. The new kitchen series from AEG comes in a meticulously crafted design and supports you with innovative automated functions. Giving you the control, precision, and techniques you need to make every dish a culinary masterpiece. Even on the first try. Simply add your passion.

AEG

Protect food with precision

Introducing a cooling line up that works with precision on respecting the different climates, textures and environments each ingredient requires.

Active temperature control to the degree and humidity optimised through independent cooling systems. Vegetables in dedicated sealed compartments with controlled humidity.

Built to exceed your expectations, by not only keeping fresh, but protecting quality of taste, for your moment of excitement when opening the fridge to a world of juicy, just-picked taste.

Locking in nature's rich taste in your favorite ingredient, so you can experience mouth-watering flavors and taste the aroma, in every bite.

AEG

CHALLENGE THE EXPECTED

AEG

rHIPS Recycle Inner Liner

Unique fridge with recycled plastic

Introducing the unique fridge freezer made with 70% recycled plastic in the inner liner walls. Designed for circularity, plastic from discarded fridges is recycled to make new refrigerators. Reducing the amount of plastic waste for a better impact on the environment.

Less plastic waste

Each refrigerator contains up to 15% recycled plastics

Designed for circularity

Plastic from discarded fridges is recycled to make new refrigerators

UNIQUE FRIDGE WITH RECYCLED PLASTIC*

*Inner liner rHIPS made with up to 70% recycled plastic representing 13% of total fridge plastic

A close-up photograph of the white inner liner of a refrigerator. On the surface, there is a circular logo with the number '70' inside. To the right of the logo, the text reads 'This part is made of 70% recycled plastic'. The background is a soft, out-of-focus view of the refrigerator's interior shelves and drawers.

INTEGRATED FRIDGE FEATURES

AEG

CHALLENGE THE EXPECTED

7000 SERIES FEATURE OVERVIEW

Best-in-class in sustainability, energy efficiency, and storage capacity.

6-STAR ENERGY

6-star energy rating for cost efficiency.

MAXISPACE

45% more storage capacity* than the standard size fridge freezer.

GREENZONEPLUS

Preserve food to stay fresher for longer.

EXTRAZONE

Extra pull-out drawer for better accessibility, so you can organize your fridge at best.

RECYCLED INNER CAVITY

made from up to 70% recycled plastic**.

- Built in Sliding Door

*Compared to the standard built-in models.

**Inner liner r-HIPS made with up to 70% recycled plastic representing 15% of total fridge plastic.

OSC7P19ACF
925975100

AEG

6-Star energy

7000 Series

HIGHEST 6-STAR ENERGY RATING

A 6-star energy rating represents the highest rated AEG refrigerator yet. This refrigerator is engineered for exceptional energy efficiency. Now you can consume less energy while saving on power bills, without compromising refrigerator performance.

AEG

MaxiSpace

700 Series

45% BIGGER CAPACITY*

Thanks to MaxiSpace, you get 45% more capacity than our standard size fridge*. It's taller and wider than regular refrigerators, offering plenty of space for numerous items.

**Compared to our standard size fridge*

AEG

GreenZonePlus

7000/8000 Series

PEAK FRESHNESS FOR LONGER

The GreenZonePlus drawer keeps fruits and vegetables fresher for longer. The sealing lid ensures that the environment is separated from the rest of the fridge. And the humidity slider allows you to adjust humidity, helping to maintain the ideal environment in the crisper.

Series 7000 & 8000 | TwinTech® No Frost

Keeps food juicy and hydrated

TwinTech® No Frost fridge-freezer protects flavours in every ingredient. It's dual cooling system ensures the freezer stays frost-free and humidity in the fridge is optimal preventing the food from drying out.

FOOD KEPT
JUICIER AND MORE
HYDRATED

AEG

ExtraZone

7000 Series

YOUR DEDICATED SPACE

Extra pull-out drawer for better accessibility and visibility, so you can organise your fridge and avoid mixing food.

AEG

Recycled inner cavity

7000/8000 Series

BETTER FOR THE ENVIRONMENT

Introducing the unique fridge made with 70% recycled plastic in the inner cavity and 15% recycled plastic overall. Designed for circularity, plastic from discarded fridges is recycled to make new refrigerators – reducing the amount of waste for less environmental impact.

**Inner cavity is made with up to 70% recycled plastic.*

925553041

AEG

5-Star energy

8000 Series

OUTSTANDING 5-STAR ENERGY

Our 5-star energy rating confirms the Fridge's energy efficiency, helping you save on your power bills—all without sacrificing performance.

AEG

Cooling 360° Metal

8000 Series

KEEP IT COOL IN EVERY CORNER

Advanced cooling technology delivers exceptional food preservation. Cooling 360° combines a premium stainless-steel rear panel and multiple vents to evenly and thoroughly circulate cold air to every corner.

AEG

TwinTech NoFrost

8000 Series

KEEP FOOD FROST-FREE AND FRESH

The TwinTech No Frost fridge-freezer, with a dual-cooling system, ensures the freezer stays frost-free. And the humidity in the fridge is always optimal, helping keep food fresh and odour-free.

STANDARD
TOTAL NO FROST

TWINTECH®
NO FROST

Series 7000 & 8000 | TwinTech® No Frost

Keeps food juicy and hydrated

TwinTech® No Frost fridge-freezer protects flavours in every ingredient. It's dual cooling system ensures the freezer stays frost-free and humidity in the fridge is optimal preventing the food from drying out.

AEG

GreenZonePlus

7000/8000 Series

SEAMLESS FIT QUAD FRIDGE FEATURES

AEG

CHALLENGE THE EXPECTED

Feature overview

MultiChill
compartment with three precise temperature settings for tailored food storage.

GreenZone
crisper drawer with humidity control keeps fruit and vegetables fresher for longer.

FresherAir Ioniser
eliminates 99.8% of bacteria* to deliver more hygienic food storage.

Sleek Air Vent Cover – Top and Bottom Design

4mm Surrounding gap
A precise fit with just 4mm surrounding gap.

CabinetSync for a flush, streamlined aesthetic.

SeamlessFit
Sophisticated style that stands out, precise design that blends in for seamless integration.

AEG

SeamlessFit

SEAMLESS KITCHEN INTEGRATION

Sophisticated design that stands out, designed with precision and flexibility to integrate perfectly into every kitchen. Sliding flush into your cabinetry for a sleek, flexible fit that brings your kitchen vision to life.

AEG

CabinetSync

PERFECT FOR EVERY KITCHEN

Refine your kitchen aesthetic with a fridge that integrates seamlessly. Designed for a standard 60cm cavity, CabinetSync ensures a flawless, flush fit—no rear clearance needed for a truly built-in look.

AEG

MultiChill

PRECISE, FLEXIBLE FOOD STORAGE

Enjoy precise and versatile food storage with MultiChill compartment. Choose from -2°C for meat and fish, 0°C for chilled drinks, or 3°C for deli items—three custom settings tailored to your needs.

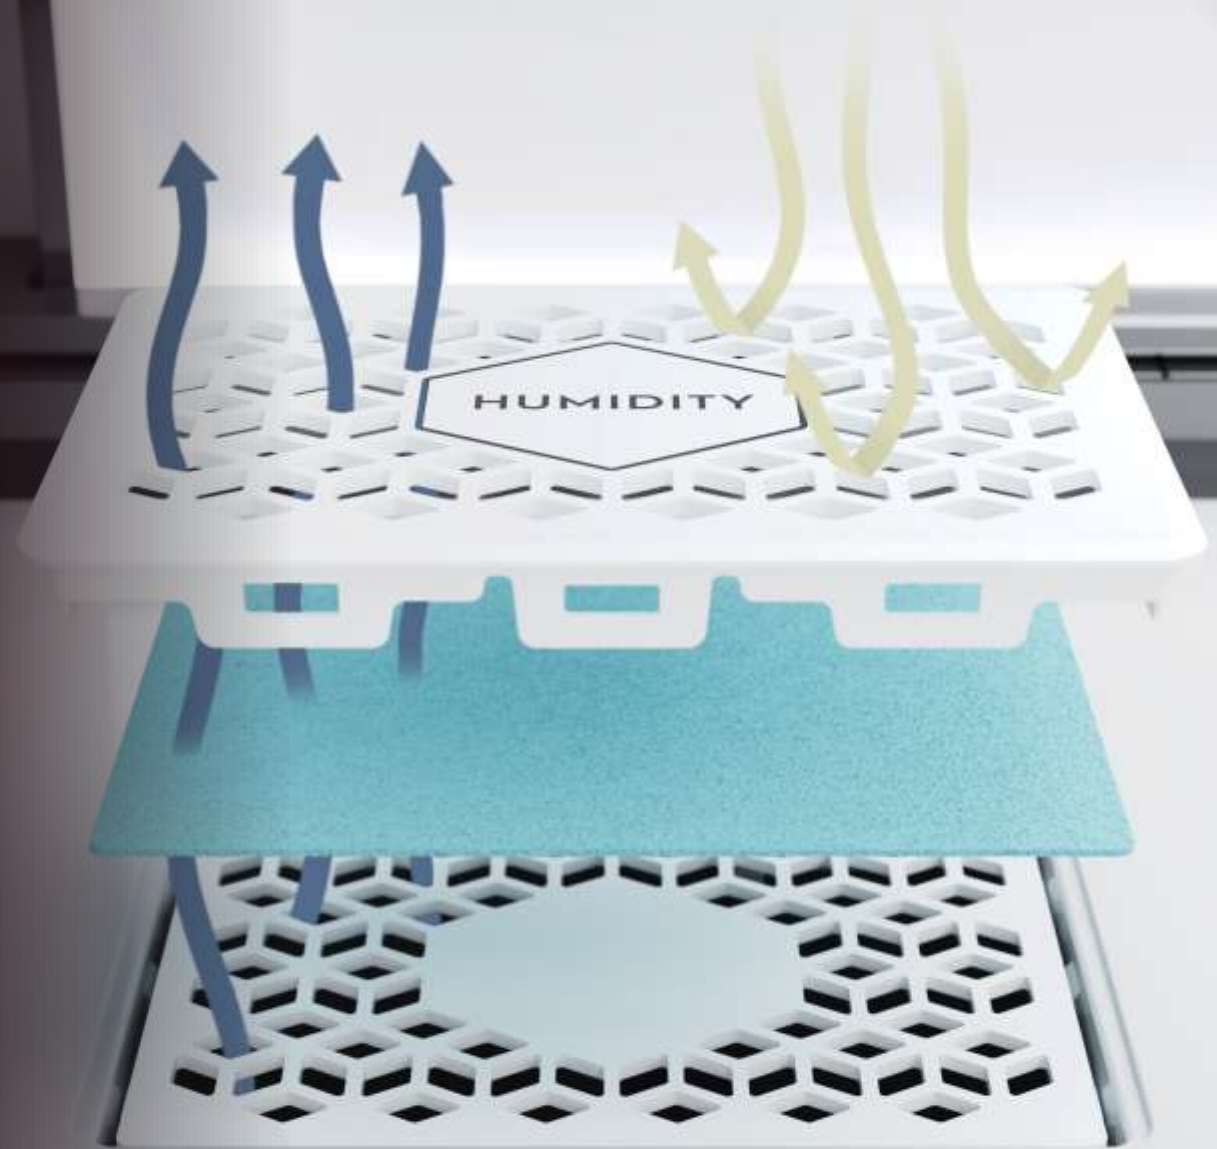

AEG

GreenZone with Humidity Pad

SEAL IN FRESHNESS FOR LONGER

Keep fruit and vegetables fresher for longer in the sealed GreenZone crisper drawer. With humidity control, telescopic runners, and soft-close design, it offers smooth, effortless access every time.

AEG

Fine design details

DESIGNED TO THE FINEST DETAIL

Crafted with AEG precision, this fridge offers elevated everyday ease—extra-wide door opening at 115 degree, full rear LED lighting, smooth telescopic drawers, and premium materials for a refined, functional design.

AEG

Ion FresherAir

ULTRA-HYGIENIC FOOD STORAGE

The FresherAir Ioniser releases negative ions that break down bacteria proteins, eliminating up to 99.8% of select common bacteria* to create a cleaner, more hygienic environment for fresher, safer food storage.

**Test by Anhui CQC-CHEARI Technology Co., Ltd Laboratory. Tests performed on Staphylococcus aureus, Escherichia coli streams*
