

PV375NAU

72CM CLASSIC GAS ON GLASS ON STEEL COOKTOP

MADE IN ITALY

Since 1948

FLAME FAILURE DEVICE

Safety fitted to all burners, the Flame Failure Device ensures that should a flame be extinguished accidentally, the gas supply to the specific burner is stopped. The burner can only then be reignited by following normal ignition procedure.

ULTRA-RAPID WOK BURNER

This large and versatile burner suits woks, pots, saucepans and griddles. Whether it's used for easy stir-fry meals or controllable low simmers, it adds a whole new repertoire to your cooking.

ELECTRONIC IGNITION

Comfortably reignite the cooktop flame with electronic ignition technology available in all Smeg gas cooktops. Simply turn the dial during the ignition process for an automatic flame that offers precise control of heat distribution and is both safe and convenient to use.

CAST-IRON PAN STANDS

The solid cast-iron pan stands cover the burner, creating a harmonious and ergonomic surface onto which pots can be placed and moved safely and securely. In addition to providing a highly professional look, these ensure excellent performance, which remains unaffected over time.

GLASS ON STEEL SURFACE

The tempered glass surface has a steel layer fixed to its underside to provide maximum strength and safety. Plus, Smeg's Easy Clean surface allows you to achieve a wipe-clean result with just a few drops of a suitable cleaner and damp cloth.

COOKTOP FEATURES

EAN	8017709324698
Dimensions	720mmW x 510mmD x 46mmH
Finish	Black tempered glass
Installation	Topmount/fully flushed
Cutout	560-564mmW x 482-486mmD (refer to technical drawing)
Capacity	5 burners: Centre (wok) 15 mj/hr Front left 4 mj/hr Rear left 10.8 mj/hr Front right 7 mj/hr Rear right 7 mj/hr
Ignition	Automatic electronic
