Water Dispenser	InfinitySpring, flush mounted internal water dispenser
Features	
Door hinges	Reversible door hinging, right
Replaceable door seal	yes
EAN-Nr.	4016803166092

Features

BioFresh Professional

The BioFresh Professional safe gives food an additional boost of freshness for a long shelf life – wow effect included: Thanks to HydroBreeze a cold mist covers fruit and vegetables like a protective balm. In combination with a temperature just above 0 °C and high humidity, unpackaged fruits and vegetables feel right at home.

BioFresh with HydroBreeze

Do you want to cool fruit and vegetables like professionals? You'll be inspired by HydroBreeze. The cold mist combined with a temperature in the safe of just over 0 °C gives food that extra boost for longer shelf life. And it creates a genuine visual wow effect. HydroBreeze is activated every 90 minutes for 4 seconds and for 8 seconds when the door is opened.

Fruit & Vegetable safe

Crunchy salad and strawberries: the most delicate foods deserve a special place so they stay fresh longer – in BioFresh safes. In the Fruit & Vegetable safe the temperature is close to 0 °C. Combined here with the constant humidity, thanks to the air-tight closure, unpackaged fruit and vegetables feel particularly at home. You do not have to adjust anything.

InfinitySpring

A source of fresh, cool drinking water in your kitchen. InfinitySpring sounds like something from a fairy tale. The water dispenser enables drip-free water dispensing and provides fresh, cold water. Simply press the panel with the carafe or glass, and enjoy the water. This enables you to save on purchasing bottles of water and to live more sustainably.

LightTower

Enjoy an optimally illuminated interior: the LightTower shows off the food in its best light and is positioned so that all of your filled fridge is illuminated at all times. The flush mounting of the LightTower in the side walls means there is also more space for your food.

Touch & Swipe display

Control of your Liebherr at your fingertips: thanks to the Touch & Swipe display, you can operate your refrigerator intuitively and with ease. Simply select functions such as SuperCool on the colour display by tapping and swiping. The temperature is controlled just as easily. And, what if you are not actively using the display? Well, it then shows you the actual temperature.
